5. Use +/- buttons to add a 1 to 360 minute watering duration. Timer advances faster if button is held down. A box is placed around Station 2. Note: A watering duration is required for station 2 to water.

Note: To start over press CLEAR.

4. Turn dial to save changes and move to the next step.

How Often

1. Turn dial to HOW OFTEN.
2. Watering schedule [A] will be blinking.

Note: Timer will not function without at least watering schedule [A] selected.

3. There are two ways to set your watering frequency for Watering Schedule [A]; Days of the Week or Interval. Only one option may be selected for Watering Schedule [A].

Option 1–Days of the week–Select specific days you want to water:

- Press + or - button to move the cursor down to the Days of the Week.
- Use the ARROW button to move to the desired day (S, M, T, W, T, F, S). The selected day of the week will be blinking.
- Press the + button to toggle the Day of the Week on (a box is placed on the day). Press the - button to toggle the Day of the Week off (the box is removed from the day).
- Repeat to select any combination of days.

Option 2–Interval–Select an interval period you want to water:

- Press + or - button to move the cursor down to the Interval selections.
- Use the ARROW button to move to INT. The Interval [INT] selection will be blinking.
- Press the + button to increase the interval. Press the - button decrease the interval. You may choose to interval water every 1 hour, 2 hours, 4 hours, 6 hours, 12 hours, or 1 to 7 days.

Note: To start over press CLEAR.
Note: The timer will not function without at least one day of the week or an interval selected for Watering Schedule [A].

4. Advanced Users–To program watering schedules [B] or [C] press the ARROW button to move through and select [B] or [C]. Selected schedule will be blinking. Repeat steps to program watering frequency for additional Watering Schedules [B] and [C].
5. Turn dial to save changes and to complete programming.

Congratulations!
Your timer is now programmed. Turn your dial to AUTO to allow your timer to water according to programmed time, station, duration, and frequency.

Additional Features
Rain Delay

Rain delay allows you to postpone watering for a set period of time. To access the rain delay, follow the steps below.

1. With the dial on AUTO, press the + button to select a delay of 1 to 7 days.
2. Screen will flash between clock and hours remaining before programmed cycle resumes.
3. To remove rain delay, turn dial to OFF and then back to AUTO.

Manual/Hand Watering

This feature allows you to water without interrupting your set schedule. To access this feature, follow the steps below.

1. There are two ways to water: all stations as programmed or selected stations.

To water all stations as programmed:

- With the dial on AUTO, press the MANUAL button.
- "ALL" will be displayed and the timer will water all stations as programmed.

To water specific stations or durations:

- With the dial on AUTO, press the MANUAL button.
- Press the STATION button to select desired station.
- Using the +/- buttons, select watering duration from 1 to 360 minutes.

Note: There may be a slight delay between the time the manual button is pressed and when watering begins.

2. Screen will flash between clock and time remaining before automatic programming resumes.
3. To stop manual watering, turn the dial to OFF.
4. Turn the dial back to AUTO to resume your programmed watering schedule.

Troubleshooting
Water does not come on at desired time.
Check if:

- Clock is set to correct time, including AM and PM.
- Dial is set to "Auto"
- Start time is set to desired time, including AM and PM.
- Rain Delay is on.

Timer does not water.
Check if:

- Timer is set to AUTO.
- Hose faucet is on.
- Batteries are low.
- Clock is set to correct time, including AM and PM.
- Rain Delay is on.

Water won't turn off.
Check if:

- HOW LONG is set to desired time.
- HOW OFTEN is set to desired interval hour or day.

Working water pressure:

- Minimum: 10 psi
- Maximum: 100 psi

Working temperature:

- Maximum: Do not exceed 120°F
- Minimum: Keep from freezing

Warnings:
For outdoor use with cold water only.
Not for use with appliances.
