**Important, please read!**

**1 Dial 4 Outlet HOSE FAUCET TIMER**

**Timer Features**
- **Dial:** Rotate the dial to customize your watering schedule.
- **Buttons:** Use these buttons to adjust settings.
- **Rain Delay:** Press to activate Rain Delay.
- **Auto:** Timer waters according to your programmed schedule.
- **Manual/Clear:** Press to water manually or clear programming.
- **Reset:** Factory resets the timer.
- **Off:** Turn off the timer.
- **Clear Indicator:** Battery low icon appears on display.
- **Batteries:** Used up or dead batteries must be removed from the timer and disposed of properly. Replace batteries when the battery indicator is shown.

**Additional Information**
- Filter traps dirt particles, prolonging life of timer.
- Clean filter regularly and replace if worn.
- Indoors to avoid potential freeze damage.
- When expecting freezing temperatures, timers should be removed and stored indoors to avoid potential freeze damage.
- The manifold will not water or function while the timer is detached from the manifold.
- Do not remove the timer from the manifold like to start watering.
- FIRMLY REPLACE THE BATTERY TRAY TO ENSURE WATER RESISTANCE AND INCREASE BATTERY LIFE. YOU WILL KNOW THE BATTERY TRAY IS FULLY INSERTED IF IT DOES NOT PULL OUT EASILY.

**Installation and Programming Instructions**

**Mounting the Manifold**
1. Attach support rod to manifold by inserting it into the hole you have drilled using a ¼-in. drill bit.
2. Drill a pilot hole using a ¼-in. drill bit.
3. Attach the support rod and outlet to the wall.

**Installing the Batteries**
1. Detach the timer from the manifold.
2. Remove the tray on the back of the timer by sliding or pulling it out.
3. Insert two AAA (1.5V) alkaline batteries and replace the tray.

MANUAL/HAND WATERING

This feature allows you to water without interrupting your set schedule. To access this feature, follow the steps below:
1. There are two ways to water: all stations as programmed or selected stations.
2. To water all stations as programmed:
   • With the dial on AUTO, press the MANUAL button.
   • "ALL" will be displayed and the timer will water all stations as programmed.
3. To water specific stations or durations:
   • With the dial on AUTO, press the MANUAL button.
   • Press the STATION button to select the desired station.
   • Using the +/- buttons, select watering duration from 1 to 360 minutes.
   • Press the CLEAR button to clear minutes from the selected station.

NOTE: There may be a slight delay between the time the manual button is pressed and when watering begins.

2. Press the + or – button to move the cursor down to select Days of the Week or Interval watering frequency.
3. There are two ways to set your watering frequency for each start time: Days of the Week or Interval.
4. Press the +/- buttons to select a duration from 1 to 360 minutes.
5. Press the CLEAR button to clear minutes from the selected station.
6. Turn dial to save changes.

WARNING: Start times with interval periods greater than 1 day still begin within 24 hours of turning the dial to Auto.

CONGRATULATIONS! Your timer is now programmed. Turn your dial to AUTO to allow your timer to water according to programmed time, stations, duration, and frequency.

ADDITIONAL FEATURES

RAIN DELAY

Rain delay allows you to postpone watering for a set period of time. To access the rain delay, follow the steps below:
