Welcome to SPRINKLER TIMER SMART WIFI
Compatible with other B-hyve products

Contents in the Box
- Wi-Fi Indoor Sprinkler Timer
- Screwdriver
- Mounting Screws and Anchors

FCC and IC Statement
This Class B digital apparatus complies with Canadian ICES-003. It is designed and manufactured to meet the requirements of Industry Canada license-exempt RSS standards. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Declaration de FCC et IC
Cet appareil est conforme aux exigences de la FCC et de l’IC concernant les appareils numériques de classe B, selon la section 15 de la Règlementation de la FCC. Ces limites sont conçues pour fournir une protection raisonnable contre les interférences nuisibles dans une installation résidentielle. Cet appareil produit, utilise et peut émettre de l’énergie radio fréquence et, si elle n’est pas installée et utilisée conformément aux instructions, peut causer des interférences nuisibles aux communications radio. Cependant, il n’est pas garanti que des interférences ne se produisent pas dans une installation particulière. Si cet appareil cause des interférences gênantes à la réception d’un signal radio ou de télévision, ce qui peut être déterminé en allumant et éteignant l’appareil, essayez de corriger l’interférence en suivant l’un de ces mesures suivants :
- Réorientez ou repositionnez l’antenne de réception.
- Augmentez la distance entre l’appareil et le récepteur.
- Branchez l’appareil dans une prise sur un circuit différent du circuit sur lequel le récepteur est branché.
- Consultez le revendeur ou un technicien radio/TV expérimenté pour help.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:
- Reorient or relocate the receiving antenna.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Quick Start Guide
You will need a smart device to connect the timer to Wi-Fi.

Install the B-hyve™ app on your smart device
You will need a smart device to connect the timer to Wi-Fi.

Features:
- Running Status/Messaging
- Timer Connected Symbol
- Calendar
- Remote Control
- Rain Delay
- Progress
- Stop Watering
- Next Zone
- Zone List
- Settings

The app will guide you through initial setup of your sprinkler timer. In addition, there are help icons throughout the app with more information and useful tips.

Timer Installation–Connecting to Wi-Fi

Plug in your Orbit® B-hyve™ Timer

Once your B-hyve™ timer is plugged into the power source, it will automatically look to pair with your smart device. The \[ \square \] will begin to blink blue. This indicates that your timer is ready to pair with your smart device. Ensure that your smart device has Bluetooth® turned on.

Connect to your Orbit® B-hyve™ Timer

Open your B-hyve™ app, create an account or login, and follow the step-by-step process to add and set up your device. The B-hyve™ app will connect to your device and you will then be guided to connect to your home Wi-Fi network.

Connect to your Wi-Fi network

Select your network from the list and enter the password for the network to connect your timer to your Wi-Fi signal. When connected, the \[ \square \] will illuminate solid white indicating a successful pairing.

Programming and Operation

Programming the Timer

The app has help screens and video tutorials to assist you with Wi-Fi connections, programming, smart watering and other general questions you may have.

Note:
Your programmed schedules are stored both in the app and on the timer. Watering will continue, if Wi-Fi connection is lost.

Manual Operation

All programming and full functionality of the timer are available in the B-hyve™ app. If you have the need, there are some basic operations you can perform directly at your timer.

Note:
If you do not see your network name in the list, tap the refresh button in the app. If your network name still does not appear, tap “Advanced” in the app and enter your network name and password. This device will only connect through 2.4 GHz Wi-Fi networks. 5.0 GHz networks are not supported and will not appear in your app.
